

Home ReSource, ReVAMP Sliding Scale Charts

How to Use These Charts:

- 1) Start at the top with the number of people in your household.
- 2) Using your current annual income, go down the column until you find the level for which your income is less than the figure in the chart. As an example, a single person household earning \$16,000 per year qualifies as “Low Income.”
- 3) Go to the ReVAMP Sliding Scale and scan the column for which you qualify to learn the rates you will pay for ReVAMP membership and hourly shop rental (if you wish to become a member) OR the discount rate you will receive for ReVAMP classes.

Special Note: Our *Home Improvement Basics* class series is FREE for all who qualify at the “Very Low,” “Low,” and “Moderate” levels.
